

OAK LEAF

Fall Newsletter

Autumn boating has a crisp, quiet charm - the water glides under a cool, gold-tinged sky. It's a perfect time to learn, refresh, and practice. Our upcoming courses are designed for newcomers and seasoned boaters looking to sharpen their skills before winter. You'll find topics on essential boat handling and safety, fundamentals of navigation and chart interpretation, weather reading and trip planning for all conditions. It also includes refreshers on emergency procedures and radio communications. Whether you're aiming for a relaxed late-season cruise or a confidence-boosting tune-up that you can carry into next spring, it will prepare you for the seasons ahead.

Summer Cruising

Our final cruise of the season is on the Labour Day long weekend, Sept 5-7th 2026, at Otter Bay Marina, Pender Island. Come and join the fun! Contact Stephen Taylor at 383-7882 for more information.

Chart your Course: Upgrade Your Boating Skills and Earn Your Radio License Certification

Let me introduce myself, I'm Peter Brennan, your Education Officer.

The end of the summer boating season is approaching, so we are busy preparing our in-person training classes. This autumn, we will be teaching a new class that replaces the old Boating 2 and 3, continuing a tradition of teaching a Boating Safety class to grade nine students on Pender Island, and running two Marine VHF classes, plus we are offering a series of mini-courses online.

Oak Bay Squadron believes in the added value of delivering classes in person, making it easy for students to ask questions and clarify complex issues.

Remember that as a CanBoat member, you qualify for a 20% discount on all classes.
